Benjamin Rose Institute on Aging and Rosalynn Carter Institute for Caregiving provide licensing, training and technical support to organizations offering BRI Care Consultation, an evidence-based care coaching intervention for people with chronic conditions and their caregivers, such as Alzheimer’s disease, diabetes and heart disease.
BRI Care Consultation
Cost-effective assistance and support to individuals with chronic conditions and their caregivers by telephone and email.

**Empowers** clients to manage care and find simple, practical solutions to caregiving challenges

**Facilitates** effective communication with family and health care workers

**Assists** clients in locating services

Computerized service delivery system features...

- Personalized assessment and reassessment
- Action steps to help guide clients with addressing their needs
- Standardized protocols ensuring quality service
- Built-in fidelity monitoring tools and reports

**Proven to be effective through 15 years of research!**

Improved care, reduced number of unmet needs, less stress, fewer ER and hospital visits and delayed nursing home placement.
